Thirst Increases Along Eastern Shore

separates residents of the Eastern Shore from beer and things like that except the legislature the Anti-League, the Tolchester Steamboat Company and a 100 per cent increase in the cost of beer importation. On June 1 down went the lid, and thirst on the Eastern Shore now is as plentiful as sand and oysters and mosquitoes.

The legislature fixed it so that any resident may import seventytwo pints of beer and a gallon of distilled liquor every month, if he wishes. But as the steamboat company-and any other company for that matter-must keep a record of all shipments and file a copy of con-signments at the end of each month. and as its agents are liable to fine

Lateness Will Make It Hard to Call Up Municipal Ownership Bill This Session.

The Crosser municipal ownership bill. which received a favorable report from the District Committee Saturday, cannot come up for consideration in the House today, as it has not yet formally

eached the calendar. Congressman Crosser, who left for a risit to Cleveland Saturday night, to visit to Cleveland Saturday night, to fight for renomination, has not had time to prepare the majority report. He will attempt to get the bill under consideration upon a subsequent District day, although it will take a fine bit of sicering to bring up so important a District measure toward the end of the session. District business is in order in the House today unless it should be set aside by the sundry civil appropriation bill. The Buchanan bill for more stringent building regulations in the District probably will be called up by Congressman Ben Johnson, chairman of the District Committee.
